To Whom It May Concern:

Re: AXIA Architects Recommendation

It is with pleasure that I write a recommendation for AXIA Architects. They have worked for Santa Rosa City Schools for many years. I have worked with AXIA on various projects a few that come to mind are the complete stadium remodel at Elsie Allen High School, Hidden Valley Elementary new primary classroom wing and multipurpose and most recently taking four classrooms and a small court yard at Comstock Middle School campus and helping to convert it to be a functional charter for kindergarten students, known as the Cesar Chavez Language Academy.

During my seven years as Director of Maintenance and Operations I have found that the staff at AXIA architects to be professional, very responsive, committed to assisting our District with our facility needs however big or small they maybe. AXIA's long standing relationship with the District is evidenced by the good work that they do. Their projects are designed to be functional spaces for students, teachers, administrators and the community. They keep the economics of school construction in mind through the design process. All the while designing the facilities to be a beautiful asset to the District and the community they serve.

Should you have any questions about my experience with AXIA or would like additional information please don't hesitate to contact me at 707-528-5128 or jbruneman@srs.k12.ca.us .

Sincerely,

A handwritten signature in blue ink, appearing to read "Jennie C. Bruneman", with a stylized flourish at the end.
