

SHORELINE UNIFIED SCHOOL DISTRICT

Box 198 Tomales, California 94971 (707) 878-2266 FAX: (707) 878-2554

June 10, 2003

To Whom It May Concern:

It is a pleasure to write this letter of reference for AXIA Architects. I have worked with AXIA for the past 14 years on various projects. These projects have ranged from small parking lots to entire new school construction.

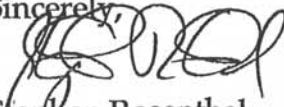

Every project that I have worked with AXIA on has been successful. I have always found their staff to be responsive, polite, and very professional. The project estimation has been very accurate. I have also been impressed with their bank of consultants.

When there has been a problem, whether big or small, the AXIA staff has always handled the situation swiftly and as an advocate for the district.

One of the services that AXIA has provided the Shoreline Unified School District is in securing outside funding opportunities. They have worked very closely with the state to make sure the district secures every dollar possible.

I would not hesitate to work with AXIA on future projects.

Sincerely,

Stephen Rosenthal
Superintendent
