

To whom it may concern,

This letter is in reference to my experience with Axia Architects and Doug Hilberman.

I am the Facilities manager of Napa Catholic Charities. We contracted with Doug in August 2009 to be our Architect/Project manager for a million dollar, State funded, renovation of two of our, turn of the century, multi unit program homes in Napa.

Doug's knowledge and professionalism are obvious, but what impressed me the most is his ability to look at the project from our view, as a nonprofit, and design the work scope so as to give us the best use, at a reasonable cost, and still retain the historical appearance of the properties.

His knowledge of codes and procedures have allowed us to bypass many hurdles with the city planning and building departments, and to conform with the States many requirements.

It's a pleasure to work with Axia Architects and Doug Hilberman and I recommend this firm for your Architectural design needs.

A handwritten signature in black ink, appearing to read "Stephen Edwards", is written over the printed name.
