To Whom It May Concern:

I am writing to recommend AXIA Architects based on Sonoma Clean Power's recent experience working with their team on an office tenant improvement project through the design development phase.

Throughout the project, AXIA has been professional, responsive, and focused on meeting our design needs and timeline. They have provided consistent support and clear communication, which has contributed to a smooth working process.

AXIA has demonstrated strong technical knowledge and superior subconsultant management. Their documentation has been clear, accurate, and well-coordinated, which has supported our ability to move the project forward with confidence and on schedule.

Their approach to design challenges has been thoughtful and creative, offering solutions that are both practical and well-executed. Overall, the quality of their work, including their deliverables and ongoing support, has been high.

Based on this experience, I would consider AXIA for future projects and would recommend them to others seeking a capable, dependable, responsive, and solutions-focused architectural partner.

Please contact me at (707) 890-8487 or rsimonson@sonomacleanpower.org if you have any questions or if there is any other way that we can be of assistance.

Sincerely,

A handwritten signature in blue ink that reads "Rebecca Simonson".
